**Biography:**

Robert Wade has spent his life on the road. He has moved over 18 times and traveled the globe (currently living in Tacoma, WA). The many experiences of his life are found intertwined in the thought provoking lyrics and eclectic music of his recorded and live work.

Robert's first professional recording "thinking out loud" has had great success in the independent market with songs like "Monkey Cymbals" spending months at the top of Online Independent charts. On "thinking out loud", Robert delivers an eclectic mix of songs that will take you through a roller coaster ride of insight.

"Stark Raving Calm" is Robert's second professional cd produced by Grammy winning Producer/Engineer Mitch Dane. SRC was mixed by Grammy winning Mixer/Engineer Vance Powell. Both records were recorded at SPUTNIK Sound.

Robert has played shows all over the United States & Europe. He is willing and able to travel anywhere to perform.

"I've known Robert Wade for several years and he's as genuine as they come. His passion for life and for music is obvious both on and off the stage, and it's a privilege to call him my friend. "

"Robert Wade is an incredibly talented individual, who writes songs about real things. The depth of his lyrics mixed with his candid vocals really draws me in. I've loved working with Robert on two projects, and hope to continue making great art together!"
